# ITALIAN ARMIES STEADILY GOING AHEAD

## ARE LIKELY TO SOON RUN UP AGAINST STRONG AUSTRIAN INTRENCHMENTS

### FIGHTING IS SO FAR ONLY IN THE DEVELOPMENT STAGE ALONG THE AUSTRO-ITALIAN FRONTIER

(Associated Press)

Rome, May 28.—Italian troops are pushing their way steadily into Austria along the line running north of the Gulf of Trieste. Apparently few Austrians are there, although further west there has been severe fighting.

Italian aeroplanes are said to have successfully attacked the Trieste and Nabresina railway, probably cutting the line. Nabresina is a port on the Gulf of Trieste, about thirty miles northwest of that city.

Fighting all along the Austro-Italian frontier is in the development stage. The Italians have taken a chain of important positions in the north, but have not met the main Austrian forces which are awaiting them behind entrenchments.

#### ITALY SAVED SERBIA FROM AUSTRIAN ATTACKS

London, May 28.—The Times correspondent at Rome says that an important revelation in the Italian Green Book is the statement that the immunity from Austrian attack enjoyed by Serbia and Montenegro during the last three months was directly due to the action of Italy, who made the immunity of Serbia a condition for entering into negotiations with Austria. Baron Sonnino, the Italian foreign minister, having twice in February notified Austria that any military action on the part of Austria in the Balkans, without a previous agreement with Italy, would have the gravest consequences.

#### GRINER FARM CLUB

The Girls' Canning Club of Griner Farm met at the school house, Friday, May 21, with Mrs. Moorhead and Miss Agnes Ellen Harris, for an all day canning demonstration. Despite the inclement weather quite a number of the girls and a few mothers were present.

Both Mrs. Moorhead and Miss Harris are efficient and thorough demonstrators and we do not think any one who was present could have come away not knowing the "how" of canning beans, this being the only vegetable used in the demonstration.

Miss Harris also gave instructions in regard to making jams, jellies, pickles, etc., of which she never seems to tire of talking.

Before the noon hour she made a "fireless cooker" and cooked rice, which not only served as a lesson in fireless cooking but was placed on the midday luncheon menu and very much enjoyed, with many other good things prepared for the occasion.

The weather was far from ideal, the day was enjoyed by all. Every one felt a little sorry to see it end and were very reluctant to say good-bye to Miss Harris. We wish that we might have her with us often.

#### BEST THING FOR A BILIOUS ATTACK

"On account of my confinement in the printing office I have for years been a chronic sufferer from indigestion and liver trouble. A few weeks ago I had an attack that was so severe that I was not able to go to the case for two days. ## GOING AFTER THEIR LOST GROUND

### POSSIBLE THAT THE AUSTRIANS WILL SOON AGAIN BE IN POSSESSION OF PRZEMYSL

(Associated Press)

London, May 28.—Przemysl, now garrisoned by the Russians, is once more threatened with investment. Just as the Russians, after surrounding the fortress and starving out the Austrian defenders, forced a surrender late in March, so the Austro-German troops are now attempting a double flanking movement from the north and southeast in an attempt to encircle Przemysl. Vienna declares that progress is being made in both directions. Even the British press concedes the position of Przemysl serious. It is considered the key of the Russian position in Galicia.

## SUNK ANOTHER BRITISH SHIP

### OTTOMANS AT THE DARDANELLES SCORE HEAVILY ON THE ALLIES

(Associated Press)

London, May 28.—On the Gallipoli peninsula the British and French admit the Turks are so strongly entrenched that only siege warfare is possible. Loss on both sides has been heavy.

During the armistice, which the Turks asked for, the Turks buried more than 3000 dead while the British gathered up 12000 rifles.

#### BRITISH LOST TWO MORE BIG BOATS

The admiralty announced last night that the battleship Majestic was torpedoed and sunk by an enemy submarine while supporting the army on the Gallipoli peninsula. The admiralty added that nearly all officers and men were saved.

The Majestic was a battleship of 14,900 tons displacement, drew 28 feet of water, was of 12,000 horsepower, was completed in 1895, cost \$4,581,910, had five torpedo tubes, made a speed of 17 knots an hour and had a complement of 757 men.

The sinking of the Majestic makes the sixth battleship lost in the Dardanelles campaign and the second sent down by hostile submarines, the British battleship Triumph having been sent to the bottom in the Gulf of Saros Wednesday.

#### EXPLOSION SUNK THE IRENE

The British steamer Princess Irene was blown up yesterday in Sheerness harbor. The ship was in the government service and the admiralty in confirming the report of the explosion said that seventy-eight workmen probably perished. The admiralty statement last night said: "The Princess Irene was accidentally blown up in Sheerness harbor this morning. So far as is known only one survivor was rescued. Several men belonging to vessels lying close to the Princess Irene were wounded by falling splinters."

#### NO CHANGE IN THE WEST

There has been virtually no change in positions on the western battle front.

#### THE SUBMARINE MENACE IS INCREASING

The submarine menace is growing both in the Aegean Sea and home waters. These vessels promise to take an active part in the operations in the narrow waters in the Adriatic, where the islands afford good shelter.

While warships are able to escape the submarines around the British Isles, the increase in their number makes the carrying on of seaborne trade more and more hazardous. The admiralty still believes the American steamer Nebraska was torpedoed.

#### ARGYLISHIRE ATTACKED

Liverpool, May 28.—The British steamship Argylshire, which left Sydney, Australia, April 16th, sent out a wireless today for help, saying she had been attacked by a German submarine. The Argylshire later reached port, but where is not announced.

#### SUB SENT DOWN ANOTHER STEAMER

Penzance, Eng., May 28.—The British steamship Cadeby was sunk yesterday off the Scilly Islands by a German submarine. The Cadeby's crew of 16 men and four passengers took to small boats and were later picked up by a fishing smack.

Urumiah has a population of about 50,000 and is the center of missionary activity. For weeks the missionaries stationed there, as well as the Syrian Christians in the city have been reported in grave danger from attacks of Kurds and Turks. Between 15,000 and 17,000 natives are said to have been under the protection of the American Presbyterian mission. At least 12,000 took refuge in the Caucasus. It has been estimated that 20,000 were dead or missing.
